### HOWARD SENTENCED.

Date Fixed for December 7. But May Not Hang For 4 Months.

Frankfort, Sept. 30.—Jim Howard was yesterday sentenced to be hanged December 7 for the murder of Gov. Goebel. Judge Cantrill overruling the motion for a new trial. The sentence was suspended for sixty days, pending an appeal to the Court of Appeals. In response to the affidavit of B. Leander Guffy, that Howard was not in the Executive building at the time of the assassination, the Commonwealth filed a counter-affidavit of John W. Ray, of Carlisle county, that Guffy said on the day of the shooting that Goebel would never be Governor and that he would be killed before the joint Assembly met. The affidavit of Mr. Ray will be brought before the January grand jury.

The case can not reach the higher court until the first week in December. If taken up at once, which is not likely, it would hardly be decided before the 10th of December, three days after the time fixed for the execution. If the judgment of the lower court be affirmed the defense then has thirty days to file a petition for rehearing, so that in any event the condemned can not be hanged for four months, and then the Governor will have the fixing of the day of execution.

Howard's strongest hope now is that Yerkes may be elected and pardon him before the case is finally decided.

### JUDGE HALL NOMINATED.

Seventh Appellate Court District Convention at Winchester.

Winchester, Ky., Sept. 29.—The convention to nominate a Democratic candidate for judge of the court of appeals for the Seventh district has brought numerous prominent Democrats from the Tenth congressional district, as well as the portions of the Ninth and Eleventh districts, embraced in the twenty-four counties of the Seventh appellate district. Without exception they report the party in good shape in their respective counties. An aggressive fight is being made all along the line.

The convention was called to order by District Chairman D. W. Gardner. Judge Robert Riddell was named as chairman and W. T. Havens, of Mt. Sterling, as secretary, and the temporary organization was made permanent. Judge W. Floyd Hall, of Harlan county, was placed in nomination by Judge Benion, of Clark; Pollard, of Breathitt, and Lykins, of Wolfe, and on motion the nomination was made by acclamation. Judge Hall accepted the nomination in a rousing speech. Every county in the district was represented but Leslie, and much enthusiasm was displayed.

Registration day (unless changed) Tuesday, October 2, 7 a. m. to 9 p. m., at voting places. Supplementary registration in County Clerk's office October 29, 30 and 31.

The Democrats are claiming Hopkins county by 800 majority.

The special vote in the Sixth district primary, is Gooch 5,365, Rhinock 5,071, Berry 4,793, Gooch beat Rhinock 274 and Berry 552.

The number of postage stamps used during the last fiscal year was five and one-third billions, valued at \$78,000,000.

The population of Memphis, Tenn., is 102,320, a gain of 65 per cent. from 1890 to 1900. The population of Houston, Tex., is 44,633, a gain of nearly 62 per cent.

Now that the fair is over, let the campaign committee get down to work and organize a Democratic club in every precinct in the county within the next ten days.

There are now eight Democratic clubs in Christian county with an aggregate membership of 500 members. Other clubs will be organized this week.

The Franklin county grand jury did not return any new indictments in the Goebel assassination case. A report was made giving as a reason for failing to do so the great difficulty in securing the attendance of mountain witnesses.

At the Methodist Conference at Elizabethtown, two ministers were tried and deposed from the ministry for immoral conduct. Rev. E. P. Crowe, of Owensboro, was charged with drunkenness and Rev. L. M. Russell, of Eddyville, with writing a love letter to one of the married sisters of his church.

STATE OF OHIO, CITY OF TOLEDO, ss. FRANK J. CHENEY makes oath that he is senior partner of the firm of F. J. The political situation in Christian county is improving as the issues of the campaign become more clearly defined. Among the 1000 names already signed to the pledge as Democratic headquarters are quite a number of the old Democrats who refused to vote for Bryan in 1896 and some Brown Democrats who voted against Goebel last year. There are also several voters heretofore known as Republicans who have enrolled their names. In 1896 there were about 300 anti-Bryan Democrats and in 1899 probably half as many anti-Goebel Democrats. In some instances the same men are included in both classes. Probably three-fourths of these voters will this year vote against government by force and assassination. The others have long since ceased to be Democrats and have allied themselves with the Taylor-Yerkes crowd in state and national politics. In the election last year many colored voters for the first time voted the Democratic ticket without being asked to do so. Some prominent negroes in Hopkinsville are registered as Democrats. It is estimated that at least 100 colored men voted for Goebel and it is believed that even more will vote the Democratic ticket this year. The Democratic gain last year in Christian county in 27 precincts was 725 votes over the 1896 majority for McKinley. The Republican majority was only 655, with 500 Democrats not voting. With a full vote this year the campaign committee is very hopeful of reducing it to 500 votes. The known changes alone justify this claim, even on the same vote cast last year.

"I don't know of a purer piece of hypocrisy than the hypocrisy of the Republican who defends the Sulu treaty and condemns the constitutional amendments in the Southern States. Under the Sulu treaty the flag floats over the Sulu Sultan's palace, and under Section 10 it is provided that the slaves can buy their liberty at the market price when they earn enough to do so, working at nothing a day. If you find there is a race question in this country that will require all the patriotism and the intelligence of people of North and South, to solve, is it a reason why you should drag in another race question? Is it a reason why you should bring into this country 8,000,000 brown people not to share in the destiny of this country? There is not a Republican in a position to discuss the negro question. The Republican party has taken the negro for thirty years to an office door and then tied him on the outside. The negro has bestowed Presidents on the Republican party, and the Republican party has given to the negro janitorships in return."—Bryan at Fargo, N. D.

Judge W. F. Hall, the Democratic nominee to succeed Judge Hazelrigg on the Appellate Bench, is a young man of 42 years, who is said to resemble Wm. Goebel more closely than his own brothers. He has proven himself to be the most popular Democrat in Harlan and adjoining counties, having been elected Circuit Judge once in a district coming within 250 votes of a re-election in 1896. Outside of these counties the appellate district in Democratic and Judge Hall's election over O'Rear is confidently claimed by the mountain Democrats, who are united and enthusiastic.

It is not considered safe for Gov. Beckham and other state officers to canvass the Eleventh district, but the 13,000 intrepid Democrats of that Republican stronghold are taking care of themselves in superb style. Jas. D. Black, Ben V. Smith, Chas. H. Metcalf, N. B. Hays, W. P. Hall, James Garrett, Jr., and other fine speakers are on the stump and "bearing the lion in his den." The Democrats expect to take a big slice off that 16,000 majority turned in last year.

The Elizabethtown News last week got out a very handsome and attractive illustrated edition in pamphlet form. It sets out the advantages of Elizabethtown and Harlan county and is a great advertisement for both and a credit to the enterprise of its capable editor, Mr. H. A. Sommers.

The strike of the Pennsylvania coal miners is still unsettled, though there are many rumors of a settlement.

## What are Humors?

They are vitiated or morbid fluids coursing the veins and affecting the tissues. They are commonly due to defective digestion but sometimes inherited. How do they manifest themselves? In many forms of cutaneous eruption, skin rashes or eruptions, pimples and boils, and in weakness, languor and general debility. How are they expelled? By Hood's Sarsaparilla. It also builds up the system that has suffered from them. It is the best of all medicines for all humors.

Wm. E. Clark is, himself a Republican, in the Chicago Record reviews the New York situation for his paper as follows:

"The Democrats are gaining confidence in Bryan's election. I do not mean the gentlemen at headquarters, who furnish 'hot air' without cost or limit and assure you in whispers that they have received reliable, confidential reports from every where that everybody is going to support Bryan and that he will have more votes than he wants, but I refer to the outside man who doesn't know much about it, but has opinions based upon what he hears from his friends in different parts of the country. The Republicans are losing confidence, too. They are no longer taking it for granted that McKinley is invincible and scoffing at those who intimate that he is not. The betting is running toward Bryan also, and that is the best barometer of the public sentiment. Two months ago the McKinley rosters were offering odds of 4 and 5 to 1. When Bryan abandoned the silver issue the betting was 2 to 1 and then 5 to 2, to 1, and the odds have kept getting smaller with every large bet until now the McKinley men will give no better than 2 to 1. Mr. Croker has invested \$100,000 of his hard-earned savings in bets that average 2½ to 1, so that if Bryan is elected he will win a quarter of a million dollars, and that is an inducement for him to be loyal and carry the state of New York, as he is trying to do. He is also encouraging his friends and helpers to bet also."

Congressman Allen will canvass the county this week speaking in seven districts. He will find clubs in three of them. Let Herndon, Bainbridge, Crofton and Bluff Springs each organize a good working club when he speaks.

The state of Mississippi will this week make five-year contracts for school books, through the county boards, and competition has been so lively that very low rates will be secured.

They are still finding 20 or 30 dead bodies a day at Galveston as the street cleaning progresses.

## THREE FIRES

Within Two Years, Had Farmer W. H. Sims.

The large tobacco barn of Mr. W. H. Sims, who lives a few miles west of Cerulean, burned one night last week. The building was well filled with a good quality of the weed and Mr. Sims' loss is about two thousand dollars. He had finished curing the tobacco the week before, but built a fire to dry out the barn, when the weed in some way became ignited. He had no insurance and the loss is a heavy one. A lot of machinery stored in the building was also destroyed.

Mr. Sims has suffered by fire three times within the past few years. About two years ago his dwelling burned, entailing a heavy loss. Shortly after that time he had a stable and contents, including eight head of mules, to burn. He had no insurance on any of the property destroyed, and he is informed.

### DWELLING GUTTED.

One of Occupants Had Narrow Escape With Life.

The residence of John Pindexter, col., situated on Hays street, was destroyed by fire Saturday night about 11 o'clock. Very little of the furniture was saved. The fire originated in the kitchen, and owing to the combustible nature of the building, which was a four room cottage, the flames spread rapidly, and the building was soon gutted.

The fire department was promptly on hand and did some fire work, thus saving the building near by.

Pindexter was away from home and his wife had retired and was asleep. She was pulled from the bed just in time to escape in her night clothes as the roof fell in.

The loss is about \$800. Partially insured.

### BASSETT & CO. VICTIMS

Of a Small Burglary Some Time Saturday Night.

Some time Saturday night Bassett & Co.'s store was burglarized, but the thief only secured \$1.61. An entrance was effected by breaking the glass in a side window and lowering the upper sash. The cash drawer was broken open. The goods, it seems, were not molested, as nothing in the merchandise line was missed. The thief unlocked the rear door and got away without leaving a clue.

### BOTH IN JAIL.

Will Winters Returned to Tennessee and Was Captured.

Will Winters, who was with his brother, John Winters, at the time the latter shot and killed Torrence Wootton near New Providence, has been captured and placed in jail at Clarksville. John Winters, it will be remembered, was arrested at Crofton last week and taken to Clarksville.

Will Winters, it is claimed, had also been in hiding near this city, but ventured over the Tennessee line and was soon taken in.

### BURGLARY AT CROFTON.

Residence Entered And Articles of Value Stolen.

Crofton, Ky., Oct. 1.—The dwelling house of Mrs. Brock Ford, of this place, was entered last night by thieves, in the absence of the family, and robbed of about \$20 worth of goods. Among the articles taken was a 38 pistol, an overcoat and a pair of pants belonging to Mrs. Ford's son. Two suspicious-looking tramps were in town the night before and the authorities at Hopkinsville were notified to be on the lookout for them.

### MARRY THIS EVENING.

Well Known North Christian Couple to Wed.

Mr. J. M. Adcox, a well known young North Christian farmer, and Miss Ida Renshaw, a very pretty and popular young lady, of the county, will be married at the home of the bride's parents this evening at 8 o'clock.

### Waived Examination.

The Union county abortionist, Dr. W. E. Clark, of Sturgis, charged with the murder of Miss Dora Walker, has waived examination and will remain in the Henderson jail for the present. He will be very lucky if he escapes with an unbroken neck.

### MURDEROUS ASSAULT.

Henry Roper Slugged By a Foot-ped in Elkton.

Mr. Henry R. Roper, one of the editors and publishers of this paper, was painfully injured while walking from the depot to his home Monday night at about 8:30 o'clock. When just below Lowry's factory he was set upon by some unknown party, who struck him with a heavy instrument of some description, inflicting two ugly gashes just above the right eye, the flesh being penetrated to the skull. This wound, while not serious, is very painful. Mr. Roper's spine was fractured at the end, and Dr. McKinney, who attended the injured man, thinks this was caused by his falling when struck.

The 7:30 train arrived just at the time of the assault, and in making a switch Grooms Conley, a colored brakeman, saw Mr. Roper lying near the track and a man bending over him. This man, he says, fled when he saw he was observed. There is absolutely no clue which would lead to the detection of the guilty party.—Elkton Times.

### For Housekeepers.

It has been brought to the attention of this paper that a baking powder is offered for sale here which contains alum.

Alum is unfit for food, producing indigestion, alum heart, sallow complexion, constipation and attendant ills. It is not fair to our people that such a substance disguised as a baking powder should be sold in order to allow a maker or a grocer a little more profit, regardless of the health of the family. Good baking powder costs about forty-five cents a pound. Alum baking powder is sold for twenty-five cents a pound or less. The difference in cost between a good and wholesome baking powder and an alum powder would not exceed a dollar for a whole year's supply. People are very foolish to take the risk and suffer ill health for the sake of a few pennies, which after all are not saved.

Good baking powder is one of the most useful things in the household, and we seriously urge our readers to save their health and money also in the end, by insisting upon having a good brand like Royal, Dr. Price's or Cleveland's.

If requested to do so by our subscribers, we will publish the name of the Alum baking powder sold here.

### John D. White at Princeton.

Princeton, Ky., Sept. 29.—The Hon. John D. White, Prohibition candidate for Governor, spoke at the courthouse this afternoon to a fair-sized crowd. The Republicans rallied around him, but when he spoke of state issues they began to get restless and disappear one by one until only a few were left to tell the story.

### Broke His Arm.

Mr. Press Robinson, traveling salesman for W. B. Belknap & Co., Louisville, broke his right arm near the wrist in this city last night just after dark by falling headfirst through the open cellar door in rear of Grady's cellar door.—Todd Co. Democrat.

## Consumption

is, by no means, the dreadful disease it is thought to be—in the beginning.

It can always be stopped—in the beginning. The trouble is: you don't know you've got it; you don't believe it; you won't believe it—till you are forced to. Then it is dangerous.

Don't be afraid; but attend to it quick—you can do it yourself and at home.

Take Scott's Emulsion of Cod Liver Oil, and live carefully every way.

This is sound doctrine, whatever you may think or be told; and, if heeded, will save life.

The annual registration of voters in four city precincts is in progress to-day and the polls will be open until 9 o'clock to-night. All persons in the city to-day who do not register, unless prevented by sickness from registering, will lose their votes next month. The residence qualifications of a voter are one year in State, six months in the county and 60 days in the precinct, and voters who will be entitled to vote Nov. 6 are entitled to register. There are four precincts in the city. All persons living north of Seventh and west of the L. & N. railroad vote at the Court House. # Gracey.

ON

Thursday, Oct. 4,

AT 3 P. M.,

there will be an auction sale of town lots to the highest bidder. These are good residence lots and are well located of good size with broad streets and alleys.

Gracey is a thriving, hustling town with schools, churches and factories and surrounded by as fine farming lands as any town in Kentucky. It has good railroad facilities, the L. & N. and I. C. railroads. There is no better town in the state to plant a few dollars. They will bring a rich harvest in a short time. Did you ever think real estate is the foundation of all wealth? That it can not "bust" like the bank, that it grows in value while you sleep, that it gives the owner credit and standing.

There are about 30 of these lots and we are going to sell them. Come out and get the first choice, bring your friends with you. No man ever failed to make money by investing in real estate in a good, live town like Gracey.

Remember the date, Thursday, Oct. 4, at 3 p. m.

Terms: 1-3 cash, balance 1 and 2 years, 6 per cent. For plat, see

### BIG CROWDS.

The Elks Fair Closed With a Mammoth Parade Saturday.

There was a rain Friday night and Saturday morning the weather was still cloudy, but there was no serious interference with the industrial parade that closed the street fair program. The parade was very long and there were more than 100 floats, carriages and other vehicles in the line. Nearly all of the principal lines of business in the city were represented and many of the floats were very gorgeous affairs.

Those having floats in the parade were R. E. Cooper & Co., life size silk made of tobacco; Gaither & West, hands-pulling tobacco; Wooldrige & Co., inspectors and brokers sampling and selling tobacco; Tandy & Eckles, mammoth hoghead 15 feet in diameter; Forbes & Bro., several departments on four floats; Rocket Store, A. S. White & Bro., coal wagon; Acme Mills, W. T. Cooper & Co., New Era, J. H. Daggs & Co., Crescent Milling Co., and others.

Among the vehicles decorated were those of Edgar Renshaw, Chas. F. Jarrett, Jas. T. Edmunds, Miss Trainum, Sam Franklin, A. P. Harness, M. H. Tandy, Mrs. J. M. Green, H. M. Dalton, West & Lee, Anderson & Fowler, Miss Mary Ware, J. N. McGinnis, A. M. Wallis, "Pond River" farm wagon, E. B. Clark, L. & N. Railroad, Greer Bros., etc.

The attendance at the Fire works Thursday night was estimated at 4,000. Friday and Saturday there was an outpouring of people, probably 10,000 or 12,000 being in the city Saturday. Saturday night the fair broke up with a confetti battle and everybody had a jolly time.

There was not a single arrest inside the Park during the week and very few in the city. But little drunkenness was seen and the absence of disorder of all kinds was very noticeable.

The fair was a great success in every respect.

The ball Friday night was a very brilliant gathering and was attended by many visitors from surrounding cities.

**OSPREY AND ITS YOUNG.**

Watchfulness Over Their Nests a Room to Other Birds.  
 The watchfulness of the fish hawk over their nests before they leave the shell is a great boon to other smaller birds. A singular trait in the character of the osprey is its toleration of sparrows, crow-blackbirds and grackles to build their nests in among the outer sticks of which its own nest is constructed. Like vasaals to a chief, these smaller birds lay eggs and hatch them in perfect security, and in mutual harmony with the larger feathered creature. There are from 20 to 30 nests of small birds in the rounded outer sides of the fish hawk's nest. From long acquaintance with the fish hawk the sparrows and crow-blackbirds have no fear of them, and they have learned that as the fish hawk during incubation constantly is on guard, their nests are doubly secure from feathered intruders, and from the inroads of the common crow, the bird that they most fear when their nests contain eggs.

When the young fish hawks come forth from the shell the constant guard of the nest by the male and female is gradually relaxed. The female leaves the nest at intervals in quest of food, soon flying back with a fish caught in harbor or bay. A noticeable feature about the mother hawk is her mode of feeding the young. Returning with a shad or porgie, when the young are only a few days old, the mother bird tears the fish in pieces with her claws and bill, giving a strip to each young bird. When the birds become a week old or about that age, and thereafter during the season, a whole fish is given to each young fish hawk by its mother. It is interesting to watch the young hawks when they are fed. They will cry for food when hungry, but unlike the progeny of all other feathered tribes and land animals, they will not fight for food. The mother bird selects the young one to which she will give a fish. The rest of them remain sitting beside their more fortunate companion in the nest, but beyond uttering plaintive cries make no effort to get part of the fish for themselves, simply waiting in patience until their turn comes, which circumstances may prolong for quite a length of time. The young birds catch no fish the first year of their lives. Their food is procured by the parents. As soon as the young brood become a few weeks old the mother hawks off quite a piece of the top of the nest to the ground. This enables the young to see their surroundings, and less obstacles are in the way when they first make attempt to fly.

The young birds do not take readily to flight. They are fully feathered and yet make no attempt to leave the nest. Generally their initial attempts to rise on wing are begun about July 10. Flying up from the nest, they fall back upon it again from a height of about five feet. They make attempts in turn with like results. The young hawks are very timid about flying away from the nests, and it devolves upon the parents to drive the young forcibly off in order that they can fly. Great is the screaming, and loud are the cries of the birds on such occasions. At last one of the young hawks will make an attempt to reach an object 50 yards away from the nest. These efforts are generally awkward, and it is not uncommon to see the fledgling tumble in some random earthward. The mother hawk, ever on the alert, rushes to its rescue, and shooting under the young bird catches it on its back and wings before it tumbles to the ground.—Forest and Stream.

**Wireless Telegraphic Clock.**

One of the interesting pieces of apparatus recently shown at the Royal society since at London was a clock which was controlled from a distance by means of wireless telegraphy. The signals were transmitted by Hertz waves, and there was a short vertical wire, a coherer, relay, and local battery, which worked the mechanism of the clock. It was stated that with the use of a standard pendulum and this apparatus all the clocks in town could be kept alike without the use of wires.

**Value of Birds to the World.**

A French naturalist asserts that if the world should become birdless man could not inhabit it after nine years' time in spite of all the sprays and poisons that could be manufactured for the destruction of insects. The insects and slugs would simply eat up all the orchards and crops in that time.

 N. K. K. L., Oct. 14, 1909.  
 PEPIN SYRUP CO., Monticello, 11 Gentlemen—I feel it my duty to express to you my gratitude for what your wonderful remedy has done for me. I was suffering from a complication of stomach disorders. For two months I could not work and was treated by three eminent physicians. One insisted upon operating on me, desiring nothing short of an operation for appendicitis would cure me. A friend induced me to try Dr. Caldwell's Syrup Pepsin and from the first dose I began to improve and have not had not had any trouble since I have gained 25 pounds in weight and am enjoying the very best of health. I never fail to say a good word for Dr. Caldwell's Syrup Pepsin for I know what it has done for me it will do for others. Gratefully yours,

 We received a letter recently we were unable to read. We failed to determine the nationality of the writer. The only words we were able to make out were, "Dr. Caldwell's Syrup Pepsin cures Indigestion." S. J. D. by C. K. Wyly.

The only way a woman's club can keep its members interested is by talking about men.

**Don't Get Injured.**

Mr. James Reed, struck his leg against a cake of ice in such a manner as to bruise it severely. It became very much swollen and pained him so badly that he could not walk without the aid of crutches. He was treated by physicians, also used several kinds of liniment and two and a half gallons of whisky in bathing it, until nothing gave any relief until he began using Chamberlain's Pain Balm. His leg was almost a complete cure in a week's time and he believes that he had not used this remedy but he would have had to be amputated. Mr. Reed is one of the leading merchants of Clay Court House, W. Va. Pain Balm is an unequalled for sprains, bruises and rheumatism. For sale by R. C. Hardwick, Druggist.

**ACT OF COURTESY MISJUDGED.**

A Southerner Tries to Render a Woman Service and Is Repulsed.

"Gentlemen live in the north with regard to some of the little things of life are sadly different from those which obtain in our land," remarked a dignified Virginian on Thursday to a New York Times reporter who had witnessed his ungracious discomfiture.

A Philadelphia little woman was struggling along with a clumsy telescope bag to leave an apartment and the discomfit of other passengers who were leaving a Corbin street ferryboat. The Virginian, a well-dressed gentleman, politely offered to carry the bag, but was witheringly rebuffed by the look of indignation and resentment which disgraced the woman's homely little face.

"I am not used to being insulted, sir," she exclaimed, as she jerked her heavy burden into her other hand, swept up her skirts with the rapid hand and went along jabbing people in the back with her telescope.

Catching the sympathetic glance of the reporter, the Virginian explained that in his land women expected men to render such services, and did not feel in any way compromised in accepting such assistance from a stranger, while in the north they seemed to associate any such act of courtesy with the advances of importunity.

"I ought to have taken warning by an experience I had the other day," continued the Virginian. "A pretty girl, not any other than my own daughters, who are at school in your city, was carrying a very dressy case and an umbrella, for it was raining hard, and had a lot of trouble with her skirts. 'Let me help you with your bag,' I said to her, and come under my umbrella.' She looked at me in terror, flushed scarlet, and then paled, and almost ran from me.

"It is too bad," he added, "that the rascals who annoy other men's wives and daughters and sweethearts make it impossible for a gentleman to render a trifling service to a woman without damaging her self-respect and being misunderstood himself."

**TRANSFERRING A PAINTING.**

Patience and Ingeniously Replace Port Canvas with New.

Transferring an oil painting to a new canvas sounds an impossible feat. But it is the latest miracle of restoration when a canvas is so rotted with age and damp as to be beyond cleaning.

A picture eight feet square and two centuries old has thus been treated by a Belgian picture dealer.

The first thing he did was to glue a huge sheet of thick manila paper firmly to the face of the picture. Then he turned it over carefully and picked off every particle of the old decaying canvas, revealing the rear surface of the paint itself.

It was a big job, and required no end of patience, but the last thread was finally removed, and nothing was left but the fragile shell of pigment. That he covered with the strongest fish glue and a new sheet of canvas was spread over it and pressed down.

In a few hours it was perfectly dry, and the painting was as firmly attached to its new foundation as if it had been there from the start. Nothing then remained but to take off the manila paper, which was readily done with hot water. After that the surface was thoroughly cleaned and the picture was now almost as bright and clear as it was when it left the painter's easel.—Stray Stories.

**PADDLING IN SEA WATER.**

Practice is Most Beneficial, Says a Man of Years' Experience.

For some reason or other paddling is very generally condemned by the medical profession. My own experience, extending over some 30 years, is that the practice is most beneficial. The children love it, and a child who has been paddled when at the seaside always craves to do it again. I have no idea on what grounds the medical objection is based, but for some reason or other the prohibition is strongly impressed on the parents. The parents think the cold water to the feet sends the blood to the head, and believe that the hot sun on the head and the cold water to the feet are injurious. No doubt the same blood which is cooled in the legs is circulating through the brain and certainly the children's legs are red after paddling, so I suppose if it does anything, it does what people call "draw blood" to the legs and tends to prevent congestion elsewhere. A child on a very hot day is fretting and sweating, but a child paddling on such a day is perfectly happy and does not feel the heat. There is certainly no undue fatigue in standing, walking or trotting about the shallow water.—London Lancet.

Men do not like to go to doctors. Nine times out of ten they wait until they are laid flat on their backs before they will consult a physician. There is some reason in this, for when a business man feels out of sorts and goes to a physician, he is often given violent drugs that make him, for a time, unfit for business and really rich—that of neglecting the health and that of taking violent drugs that rack the entire system. It is always to keep on hand a bottle of Dr. Pierce's Golden Medical Discovery. If a man will resort to this great medicine whenever he feels that he is out of sorts and threatened with illness, he may keep in good health. It is the great appetite sharpener, blood-maker and flesh-builder. It fills the arteries with the rich, red, tissue-building blood of health. It builds the weak, muscular and nerve tissue of health. It does not make corruptible people more corruptal.

"I want to inform you of a cure effected by Dr. Pierce's medicines. My son, Nelson Smith, about seven years ago I had grip, ending with bronchitis and consumption. He was very weak and could not get on his feet. I had consumed all the best remedies and could not get any relief. My family doctor said I could not get any relief from medicine. I then bought a bottle of Dr. Pierce's Golden Medical Discovery and took it immediately. After using three bottles, I was receiving blood and feeling much better. I then commenced taking medicine, now weigh 175 lbs. and have a splendid appetite and well and believe I am entirely cured. I am thankful and will give you my best wishes. I am thankful and will give you my best wishes. I am thankful and will give you my best wishes."—My neighbors and friends.

AFFRONT TO DR. PINER.

Christian Church Refuses To Let Him Preach in Its Pulpit.

Elizabethtown, Ky., Sept. 20.—Bishop Hendrix preached at the courthouse this forenoon and appointed ministers who were attending the Methodist Conference to preach at the various other churches, among them the Rev. Dr. Walker K. Piner, of Hopkinsville, at the Christian church. When the latter appointment was made known to the members of the Christian church they held a caucus and decided not to allow Dr. Piner to occupy their pulpit on account of his recent trouble at Hopkinsville. An appointment had been made of another minister to preach in the Christian church at night, but when it was known that Dr. Piner had been refused the church, the other appointment was canceled by the Bishop.

A love feast was held this morning, at which Dr. Piner gave an account of his recent trouble in a very pathetic way, and at the close of his remarks nearly all the members present gave him the right hand of fellowship, and some of them a hearty hug and a slap on the back.

STOLE THE TICKETS.

Empire Coal Company's Store Robbed by a Burglar.

The Empire Coal Co.'s Store at Empire was broken open Friday night and the cash drawer robbed of a few dollars left in it. The thief also took 100 L. & N. excursion tickets from Empire to Hopkinsville, that Mr. Thos. Rutland, the mine superintendent, had bought at Crofton for the use of his men the next day. These tickets were stamped and good only for one day. They were not used and are of no value to the thief. As there is no ticket office at Empire, Mr. Rutland, rather than have the miners disappointed, bought cash fares for 137 of them and brought them to the fair at full rates. They spent the day in the city and returned last night. All of the large number wore white badges marked "Empire."
